## BIO

---

I am a junior full-stack web developer, graduated from HackYourFuture, where over the course of six months I learned HTML, CSS, JS, Node.js, React.js and MySQL. I am looking for a job as a junior developer to improve my skills in web development.

## EDUCATION

---

**HackYourFuture** – Full stack web development course (November 2017 – July 2018)

HackYourFuture is a coding school that gives refugees the opportunity to build and improve their programming skills. Intensive six months training for both front-end technologies such as HTML, CSS, JavaScript as well as back-end technologies such as Node.js, Express.js, MySQL. In addition, problem-solving skills and teamwork are emphasized throughout the curriculum. In the final 6 weeks students are working together on a project.

**Kastamonu University** – Primary Teaching Department ( 2007-2012)

Bachelor degree (BSc) in primary school education
